

CHRISTIAN LOUIS BOLEA

INFORMATION TECHNOLOGY • SOFTWARE DEVELOPER

Lucena City, Quezon, Philippines | 09762539052 | A21-32404@student.mseuf.edu.ph | linkedin.com/in/bolea23 | github.com/cbolea23

SUMMARY

Motivated Information Technology student at Manuel S. Enverga University Foundation with hands-on experience in mobile and web development. Passionate about building practical applications using Flutter and Django, with a solid background in database management and REST APIs. Seeking an entry-level Software Developer or IT Specialist role to contribute to software projects and continue growing professionally.

EDUCATION

Bachelor of Science in Information Technology **Expected Graduation: 2027**

Manuel S. Enverga University Foundation — Lucena City, Quezon (Major in Web and Mobile App Development)

- **Relevant Coursework:** Mobile Applications Development, Database Management Systems, Web Systems and Technologies, Systems Analysis and Design, English for Occupational Purposes

PROJECTS

NiyoSense — Frontend and Backend Developer (Capstone Project) **2024 – Present**

- Developed a cross-platform mobile app using **Flutter & Dart** for field data recording and coconut maturity grading.
- Built the web dashboard and REST APIs using **Django (Python)** for centralized data synchronization.
- Configured cloud database storage with **PostgreSQL (Neon)** and added offline data saving with **SQLite** for remote field use.
- Designed clean, user-friendly mobile screens in **Figma** and tested app features on Android devices.
- Used **GitHub** for team version control, code collaboration, and feature branching.

TECHNICAL SKILLS

Programming Languages: Dart, Python, JavaScript, PHP, Java, SQL

Frameworks & Libraries: Flutter, Django

Databases: PostgreSQL (Neon), SQLite, MySQL, Supabase, Firebase

Development Tools: Git, GitHub, Visual Studio Code, Android Studio, Figma, Postman

Core Competencies: Mobile App Development, Web Development, REST APIs, Database Management, Code Debugging

CERTIFICATIONS & TRAINING

Foundations of Cybersecurity — Google Completed: Oct 2025

Backend Development and API Creation — Packt Completed: Apr 2026

Database Structures and Management with MySQL — Meta Completed: Oct 2025

Introduction to Front-End Development — Meta Completed: Oct 2025

Flutter and Dart: Developing iOS, Android, and Mobile Apps — IBM Completed: May 2025

KEY STRENGTHS

- **Clear Communication:** Able to explain project features, technical steps, and user needs in simple, direct words.
- **Problem Solving:** Patient and practical approach to finding code errors, testing database queries, and fixing bugs.
- **Teamwork:** Experienced in collaborating closely with capstone teammates, sharing tasks, and meeting project deadlines.
- **Willingness to Learn:** Quick and eager to learn new programming tools, libraries, and development practices.
